Common Questions

WHY SHOULD I GET A MAMMOGRAM?

1 in 8 women will have breast cancer, and 8 out of 9 have no family history. But when detected early, breast cancer has a nearly 100% survival rate. Screening 3D mammograms help with early detection and better outcomes.

WHO IS ELIGIBLE TO RECEIVE A MAMMOGRAM?

Any female that is 40 or older (under 40, you may receive a screening if you have a prescription from your doctor) and has not received a screening mammogram within the past year. This will be considered your annual well women screening mammogram.

You are NOT considered eligible if you have been treated for breast cancer within the past 5 years, are currently experiencing symptoms in your breasts, or if you are currently pregnant or haven't stopped breastfeeding for 5 months.

DO I NEED A PRESCRIPTION?

No prescription or referral is not needed if you are 40 and older. Under 40 requires a prescription.

HOW MUCH DOES IT COST?

The preventative screening mammogram is typically covered at 100% through your employer's and all other major insurance, if you meet the above eligibility requirements. No additional charge for 3D Mammogram to you.

HOW LONG DOES IT TAKE?

As little as 10 minutes if you bring completed pre-registration forms found on the scheduling page of AdventHealthMobileMammography.com.

WHAT SHOULD I BRING?

Please bring your insurance card and pre-registration forms. If you are under 40 years of age, bring the required prescription from your doctor. We provide wipes and deodorant on the bus, but you may want to bring your own.

WHO GETS THE RESULTS?

Results are sent to you and your doctor. If your result is abnormal, you will be contacted and we will help walk you through additional tests and/or treatment options. Your doctor will also be called.

ARE WALK-INS WELCOME?

Yes, but appointments in advance will have priority and are appreciated.

HOW DO I SCHEDULE AN APPOINTMENT?

Online is fastest and easiest at AdventHealthMobileMammography.com, select your employer, select your school from the drop down and follow the instructions.
